

Girls at Work Summer Camp 2023

What are the program hours? When is drop off/pickup?

We have structured programming between 9 am and 4 pm when the girls will be wood working and participating in hands-on STEM projects. You can drop off your child as early as 8 am and pick them up as late as 5:30 pm at our shop at 200 Bedford St. We will have crafts/activities/games for the girls to do outside of the regular program hours.

Is transportation provided?

We do not have transportation available and girls will need to be dropped off and picked up at our shop located at 200 Bedford St. If we go on a field trip that requires travel, we will provide transportation for field trips only.

Age of the campers?

This camp is for girls between the ages of 8-14 for Weeks 1 - 6.

We are offering a special Middle School Session during Week 7 for girls ages 11 - 14.

Half days or partial weeks?

We do not offer half days or partial weeks as girls will fall behind on their projects.

Do the girls need to bring lunch or snacks?

Breakfast, snacks, and lunch will be provided for the girls. If your child is a picky eater or has certain dietary restrictions and would prefer to pack a lunch, make sure it can be stored separately in their lockers, without the need for refrigeration or a microwave.

Do the girls have access to water?

We will give each girl a water bottle that they can fill at our touchless water fountain. They will keep their water bottles in their lockers and we will have periodic water breaks.

Is there any special clothing the girls need to wear?

Comfortable closed toed shoes like sneakers are best over sandals and nothing that will hang in the way, such as long jewelry, scarves, etc. Main concern is that their hair is tied up out of the way when they arrive.

Do the girls need to have sunscreen?

The majority of our time will be spent indoors, however we will be working on some projects outside. We ask that you please apply sunscreen before they arrive. You are also welcome to send sunscreen that they can keep in their lockers so they can reapply later in the day if needed.
