

GIRLS AT WORK

Kindness Room Wish List

Our mission is to empower girls through building. We have learned over the years, given the demographic that we target, that it is important to 'empower' girls while we have them in our care in as many ways as possible.

Thanks to our incredibly kind community, we now have a large "Kindness Room" which enables us to provide our young builders with warm coats and boots during the winter months, school supplies and backpacks in the fall, sneakers during summer camp, and groceries and personal care items throughout the year. Every girl who comes through our doors each day leaves with a bag of groceries after building and for so many of our girls who live with food insecurity, this can be empowering. Our kindness room defines **#strongertogether**.
